3. Flow until entrance
4. Application documents ①
5. Application documents ②
6. Application period, Tuition fee and miscellaneous expenses, Refund

1. At the beginning

Waseda is a place of education not only for Japanese.
It is a dream destination for international students who come to
Japan

to study hard with their great dreams.

With the aim of becoming “A bridge between the world and
Japan” Waseda Keifuku Language Academy was founded in 2009
in Waseda-Natsumezaka.

“立志在日本、放眼于世界。追求真善美、造福全人類。”

This is a message that I want to convey to all international
students.

“With a learning heart in Japan, have the whole world in view.
(Because of the convenience of the Internet and digitization is
pursued today)

Pursuing truth, goodness and beauty while valuing culture.
Become a rich person that contribute to the people of the
world.” is what it means.

Study abroad is only possible if you have the courage to take on
the challenge of jumping into a new environment. In order to
reach something new, you need to be prepared to give up
something away.

To any courageous student who wants to study in Japan with
consciousness and aspiration.

We will do our best to support you.

Waseda Keifuku Language Academy
Chairman Hoeki Nakafuku

2.Features

●Teaching methods that attach importance to the communication and cooperation ability of the students

Universities, graduate schools, and specialist colleges, which everyone is applying for, require foreign student's communication ability. Therefore, our academy attaches great importance to improve students' ability of think independently, express themselves and to understand information.

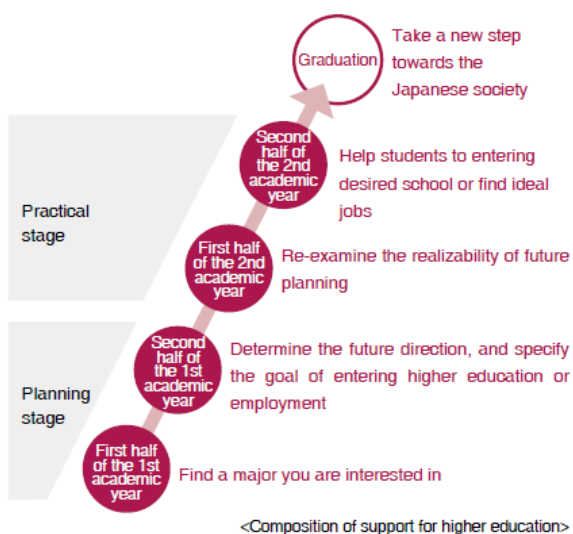

The seating layout in the classroom is called the island format because it is divided into groups of 5 to 6 people and is shaped like several islands to make communication easier. In order to train students who can play an active role in a globally society, we offer lessons focusing not only on their own opinions, but opinions come from the others and to respect their values.

●Customize the entrance guidance plan for every student

Waseda Keifuku language Academy has been committed to encouraging and helping international students to enter universities, graduate schools and specialist colleges. Through the "Future planning research" in class sections, we ask students what they want to do in the future, "what they really want to do", etc., and find out what they are interested in and care about. From various angles, we will guide them to the pass that suitable for themselves. As a result, students develop their own ability to open up the future and produce effective results to establish their future vision.

After the students have established their vision for the future, we will help them to collect information about the company they want to work for, information about the school where they can learn the fields they want to learn, and improve the feasibility of their future plan according to the results of the external examinations, and guide them to the proper way. We also teach students how to write an admission application or resume correctly and the composition of Japanese articles, and provide support to every student in their life planning from enrollment to graduation.

●10 Rules for the Student

At keifuku Language Academy, it is important to help students to understand and abide by the various rules, manners and morals in Japan.

There for, we have established the "10 Rules for the Student" by raising the basic 10 rules that must be observed in class. During the orientation, both Administration Office and Academic affairs division will give students support for life abroad and understand the relevant rules and regulations of Japan and our academy based on the student guide book.
